- **May Tuition:** Reminder that May tuition is the same. As stated in our handbook: Our tuition is based on a YEARLY CHARGE (9-month season). Tuition is not prorated on months where there is holidays or breaks. We factor these in when pricing for the year. *For example, if your dancer attends class on a Monday, but the studio is closed for a holiday, you will pay the same amount regardless of if that holiday resulted in only three Monday classes. The same would be true in reverse if there were five Mondays in month.
